LANDSCAPE PLANNING

Winter time is planning time for the landscape department. Our professional design team can help you plan and visualize any new landscape or an addition to your existing landscape. Spring time is the best time to establish plantings, and also offers the best selections from nurseries; so plan this winter so that you can begin in spring. Contacting us and planning this winter ensures that you will be first on the list come spring and insures that you will have all summer to enjoy any new landscaping. Don't wait until the last minute, get ahead of the game, and let us help you with your every landscape desire, even as the cold weather sets in. Nice weather will soon be right around the corner.

1. In a small saucepan, combine shortening and milk. Heat until shortening is melted; set aside to cool. Dissolve the yeast and 1 teaspoon sugar in the warm water. Beat the eggs, 1/2 cup sugar and salt together. In a large bowl, combine the milk mixture, yeast mixture and egg mixture. Sift the flour and baking powder together, and add to the wet mixture; stir until combined, then cover and refrigerate overnight.

2. Divide dough into fourths, and roll out on a floured surface. Spread surface with the soft butter. Cut dough into triangles, and roll up from larger to small end. Place rolls on a baking sheet, and allow to rise for 3 to 4 hours. Preheat oven to 400 degrees F (200 degrees C.)

3. Bake in a preheated oven for 8 to 10 minutes, or until golden brown.
